MEET YOUR SAFER NEIGHBOURHOODS TEAM

The role of the Safer Neighbourhoods Team is to help deal with important quality of life issues for residents by focusing predominantly on lower levels of crime and anti-social behaviour. Our main duties are to provide public reassurance through high visibility patrols and, by engaging with members of the public, identifying any issues or concerns that may be impacting on their lives.

Beat Surgeries enable you to come along and talk to us about any concerns you may have, and allow us to gain a much clearer picture of what is going on in your neighbourhood and identify ways in which we might be able to help.

Come and meet your local PCs and PCSOs
