

Project Kraken

Crime & Counter Terrorist Strategy

Protecting the waters of the

PROPERTY BULLETIN

With the re-launch season upon us all boat owners are reminded about the vulnerability of high value property on board their boats. There has been an increase in the theft of high value electronics, plotters, radar scanners and cockpit instruments. Remove any loose items, mark all other items and record serial numbers.

The marking of items is important when it comes to identifying property. The marine unit attend all local boat jumbles and regularly monitor E-bay. Property clearly marked not only could prevent theft, it could also help convict an offender.

If you have any information regarding this bulletin please contact the Hampshire Police Marine Unit on 023 8023 6753 or 0845 0454545
