

INTELLIGENCE TASKING AND DEVELOPMENT

Force Performance Profile

March 2018

Prepared by The Performance & Consultation Team

Introduction

2017/18 Reporting Year

This document contains a strategic overview of the Constabulary's performance. It displays a set of performance measures aligned with the new Performance Framework and datasets from departments across the Force. The document provides information on our performance and supplementary data to assist in understanding the reasons behind performance in those areas. It has been designed as a headline document that will enable our customers, both internally and externally, to easily assess performance information.

Where applicable, MSG (most similar group) data is published along with crime and formal action taken outcome data. MSGs are calculated by the Home Office based on a number of socio-demographic and geographic variables which are correlated to crime/incident levels and the fear of crime. These groups provide benchmark comparisons of crime and formal action taken outcome rates. The MSG datasets are published on iQuanta by the Home Office one month in arrears. The comparative crime data is based on the three months to the end of the previous month and outcome data on the twelve months to the end of the previous month.

Please note that iQuanta data is provisional. Within the profile Hampshire data is published and compared against MSG average. The other forces within Hampshire's MSG are: Avon & Somerset, Staffordshire, Essex, Leicestershire, Hertfordshire, Sussex and Thames Valley. We are unable to provide figures for these forces due to the provisional nature of this data.

This document is taken forward by key stakeholders within the organisation to the Force Performance Group, where it is used to highlight areas of good performance and those for development.

This is an evolving document and as such, the content is likely to alter over time.

Any feedback would be welcomed by the Performance and Consultation team. Email: Performance & Consultation MAILBOX

Victim Satisfaction

Note: CVF - completely, very and fairly satisfied

Overall Satisfaction (Burglary, Violent & Hate)	Latest R3 Months
Respondents	1148
Initial Contact	93%
Actions Taken	73%
Being Kept Informed	68%
Treatment	89%
Whole Experience	76%

VALUES IN THE CODE OF ETHICS

Victim Satisfaction - Rural v Non-Rural

CVF - Whole Experience	Rural	Non-Rural	Difference (% points)
Violent crime	73.6%	72.5%	1.1%
Burglary residential (excluding sheds/garages)	88.2%	84.0%	4.2%
Hate crime	84.3%	76.8%	7.5%
Overall satisfaction	78.5%	75.5%	3.0%

Notes:

The figures show the rural / non-rural differences for victim satisfaction for the rolling twelve month period April 2017 - March 2018 for the 'whole experience' question

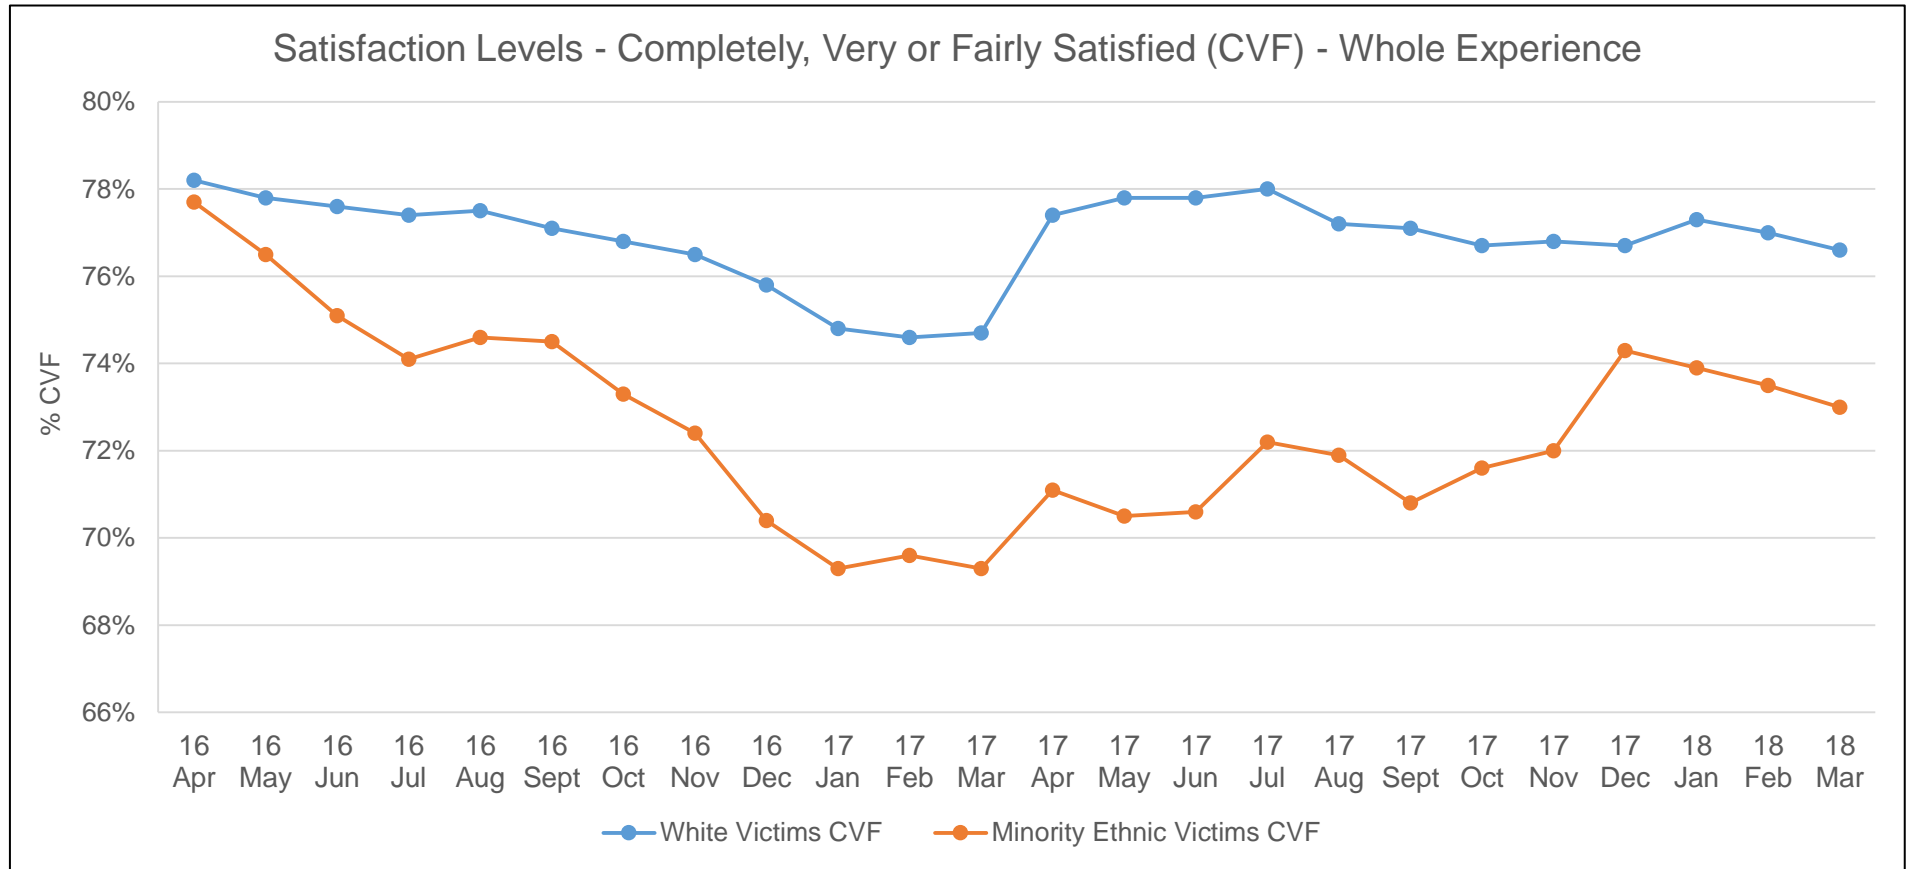

988 (22.2%) interviews were conducted with rural-based victims compared to 3472 (77.8%) for non rural-based victims (4460 respondents answered this question)

Due to the limited number of rural-based victims, the data shown is for twelve months

CVF - completely, very and fairly satisfied

VALUES IN THE CODE OF ETHICS

Satisfaction Gap

Note: From April 2017, vehicle crime has not been included in the rolling 12 months figure. Crime types now included are burglary residential (excluding sheds and garages), violent and hate crimes/incidents

BAU: 20 shot gun grants and 10 firearm grants did not meet the SLA in March, due to errors in applications and on-going enquiries that resulted in them falling out of the 12 week SLA.

At 5 April, there are no renewals awaiting processing as these, along with all other areas of BAU, are being dealt with upon receipt and therefore fully meeting the SLA.

Legacy: All original 973 legacy grant applications have now been completed. Of the 28,000 sales notifications, approximately 3,900 remain outstanding and these continue to be worked on.

Renewal of firearm and shotgun certificates SLA - <i>all renewals will be granted before the expiry date, subject to no errors/ issues in the application</i>
Grant of new firearm and shotgun certificates SLA - <i>12 weeks to complete, subject to no errors/ issues in the application</i>

Child Abuse	Previous YTD	Current YTD	Change	% Change
Charged and Summoned	196	221	25	12.8%

Note: The crime codes selected are those defined by HMIC for child abuse.

The performance success of Child Abuse Investigations is not simply measured by the number of convictions. Any investigation must consider the needs and views of the child. Child Abuse covers a wide range of offences, including physical and sexual, with offenders not just strangers but often within the family. It also includes offences where both the victim and the offender are children. Almost all offences involving child victims involve multiple agencies working together to safeguard. In order to understand our own performance, we measure three key areas;

Formal Action Taken

Where we have either charged the suspect who will then go to court, or give them a formal out of court disposal such as a conditional caution or community resolution, where we can attach conditions, for example to undertake education or parenting courses

Formal Action Not Applicable

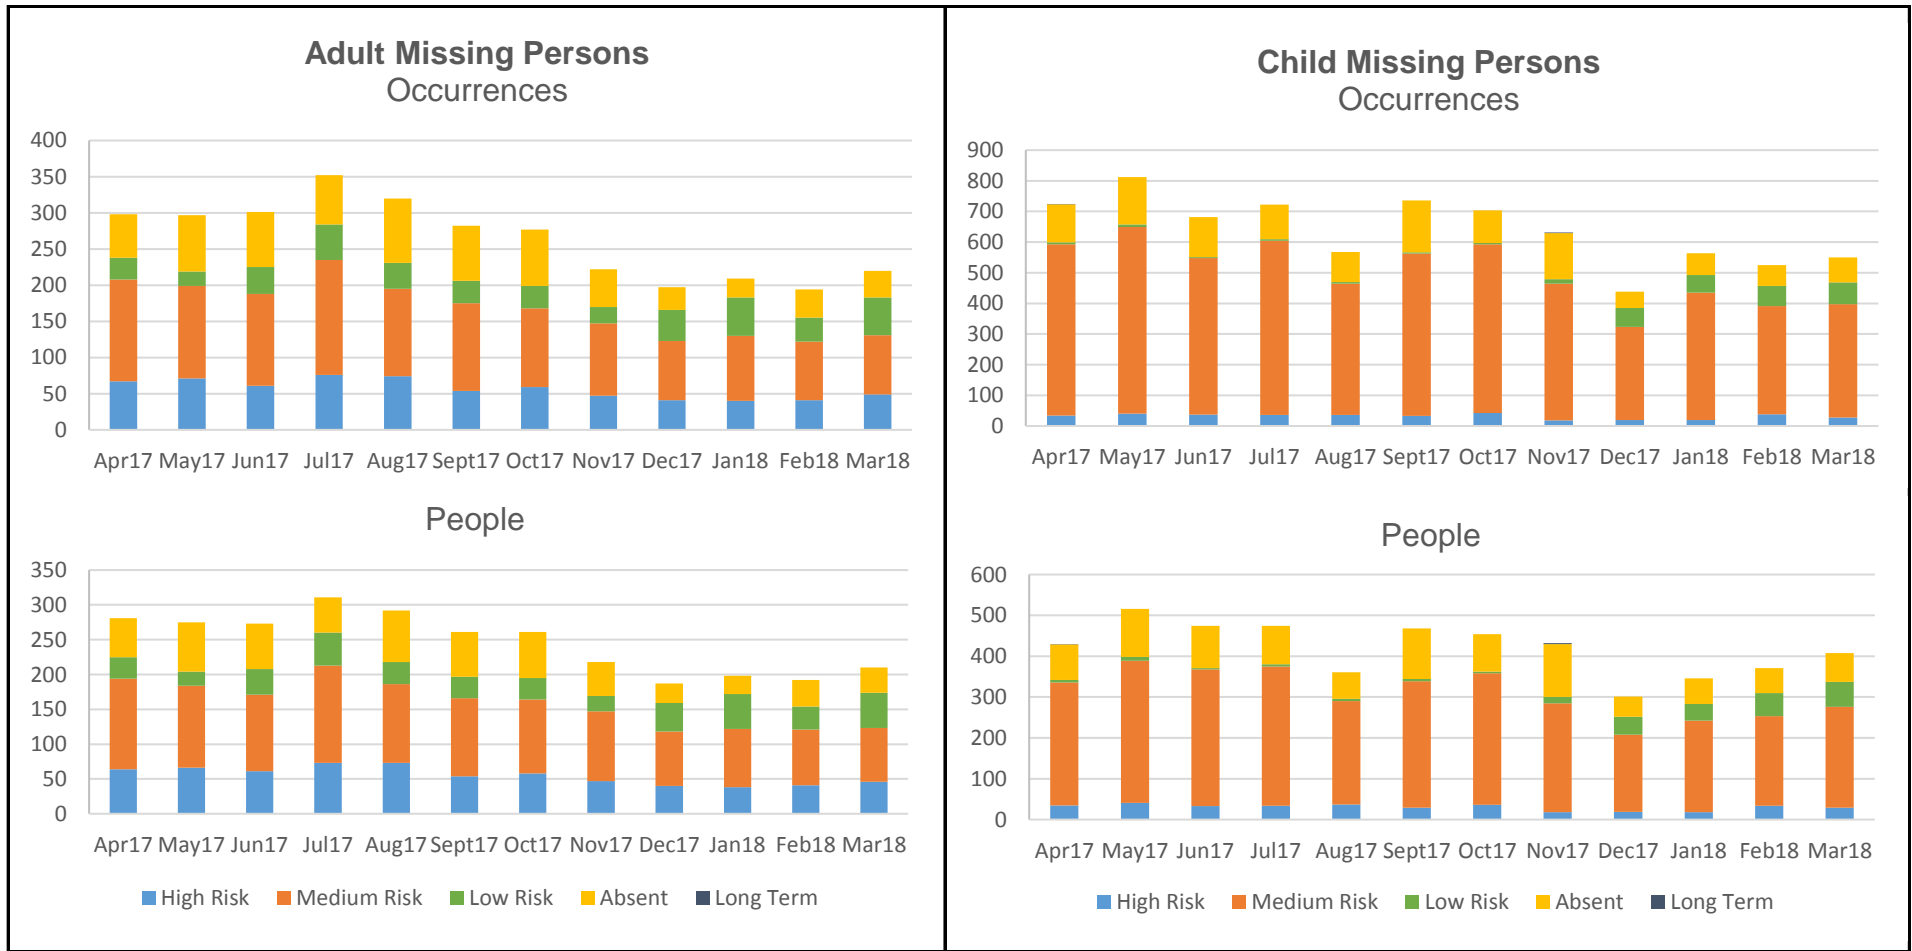

Sometimes we have sufficient evidence to proceed with a charge or formal outcome but for all of the reasons outlined above we will not proceed to a prosecution. Often this is because of the impact on the victim, their wishes, or the public interest in prosecuting the offender, for example where the child is very young and the consequences of the action taken were not necessarily realised and would result in a criminal record. More often than not this relates to offences where the victim or offender were of a similar age

Outcome 20

This is used where another agency other than police have primacy for the action taken following the report of a crime. In most cases this will be social services and often results from joint investigations related to crimes within the family such as low level assaults or neglectful living conditions. Often in these cases the intervention of other services may help improve the long term care of the child and is therefore in their best interest

IDENTIFYING AND PROTECTING THOSE WHO NEED OUR HELP

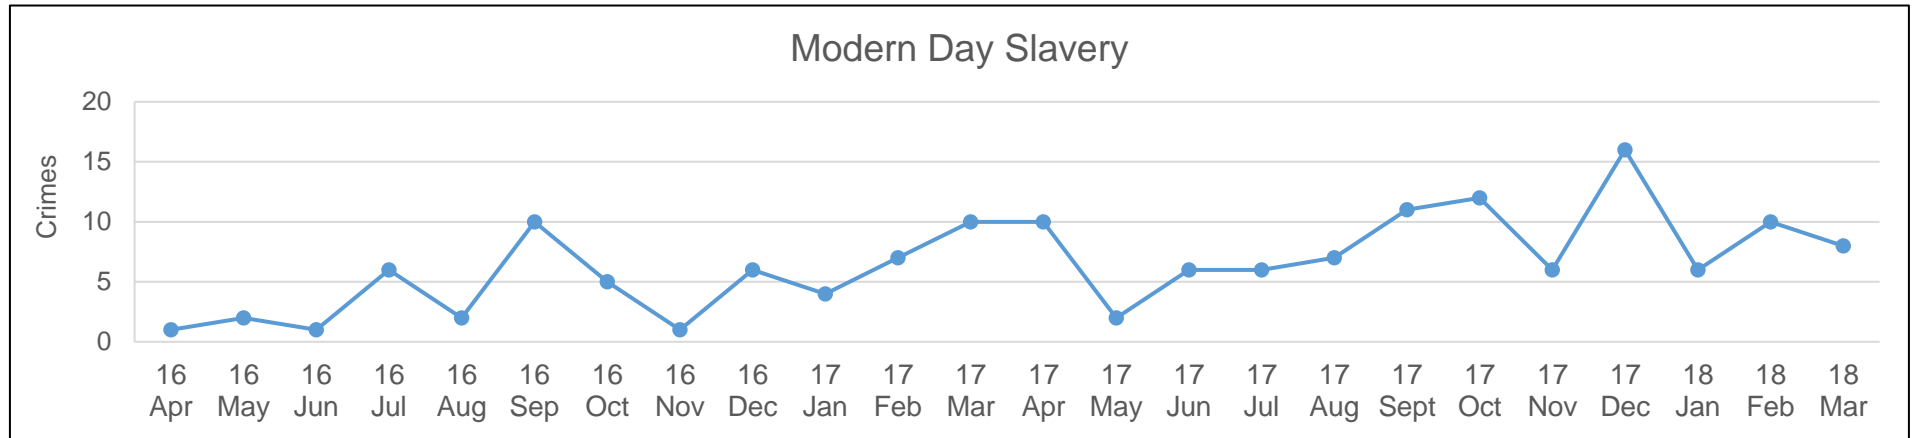

Missing Persons

Missing Persons	Occurrences YTD	People YTD	Repeat Rate
Adult	3169	2959	7.1%
Child	7654	5035	52.0%
