

INTELLIGENCE TASKING AND DEVELOPMENT

Force Performance Profile

September 2018

Prepared by The Performance & Consultation Team

Introduction

2017/18 Reporting Year

This document contains a strategic overview of the Constabulary's performance. It displays a set of performance measures aligned with the new Performance Framework and datasets from departments across the Force. The document provides information on our performance and supplementary data to assist in understanding the reasons behind performance in those areas. It has been designed as a headline document that will enable our customers, both internally and externally, to easily assess performance information.

Where applicable, MSG (most similar group) data is published along with crime and formal action taken outcome data. MSGs are calculated by the Home Office based on a number of socio-demographic and geographic variables which are correlated to crime/incident levels and the fear of crime. These groups provide benchmark comparisons of crime and formal action taken outcome rates. The MSG datasets are published on iQuanta by the Home Office one month in arrears. The comparative crime data is based on the three months to the end of the previous month and outcome data on the twelve months to the end of the previous month.

Please note that iQuanta data is provisional. Within the profile Hampshire data is published and compared against MSG average. The other forces within Hampshire's MSG are: Avon & Somerset, Staffordshire, Essex, Leicestershire, Hertfordshire, Sussex and Thames Valley. We are unable to provide figures for these forces due to the provisional nature of this data.

This document is taken forward by key stakeholders within the organisation to the Force Performance Group, where it is used to highlight areas of good performance and those for development.

This is an evolving document and as such, the content is likely to alter over time.

Any feedback would be welcomed by the Performance and Consultation team. Email: Performance & Consultation MAILBOX

Crime Data Integrity

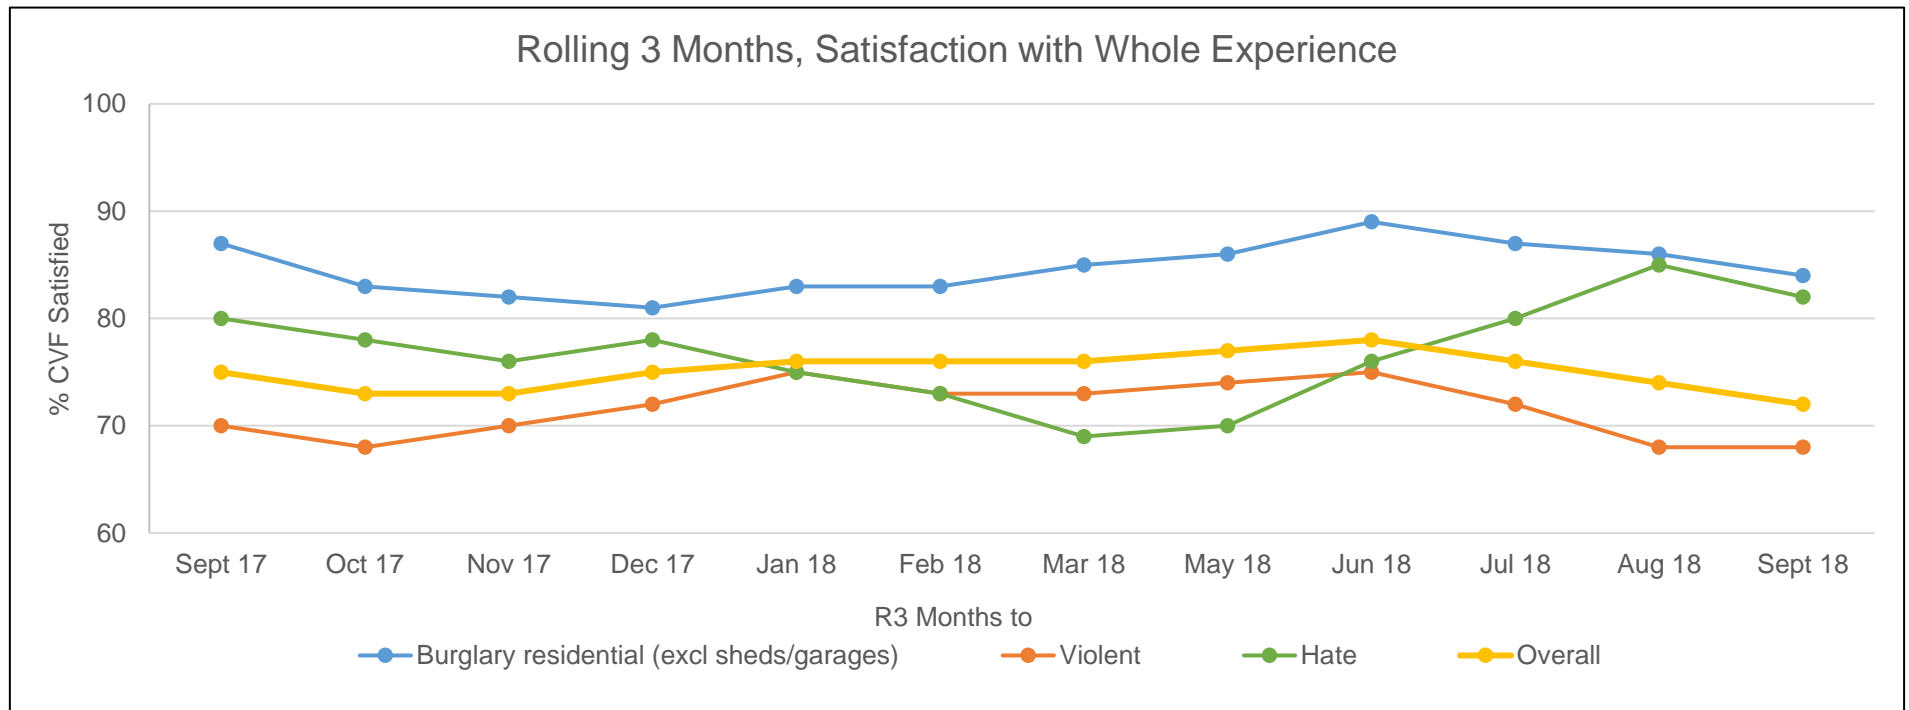

Note: Aspiration to achieve 95%

No incident to crime compliance audit undertaken in January 2018

Data is two months in arrears

Incident to Crime Compliance	Latest Audit	Change Since Last Audit
Violent Offences	86%	+8 % pt
Sexual Offences	82%	-14 % pt
Other Offences	89%	+7 % pt
Other Systems	81%	-5% pt
Cancelled Crime	96%	-1 % pt

Victim Satisfaction

Note: CVF - completely, very and fairly satisfied. No interviews were undertaken in April 2018 due to moving to new provider

Overall Satisfaction (Burglary, Violent & Hate)	Latest R3 Months
Respondents	1252
Initial Contact	94%
Actions Taken	68%
Being Kept Informed	64%
Treatment	87%
Whole Experience	72%

VALUES IN THE CODE OF ETHICS

Victim Satisfaction - Rural v Non-Rural

CVF - Whole Experience	Rural	Non-Rural	Difference (% points)
Violent crime	72.6%	71.3%	1.3%
Burglary residential (excluding sheds/garages)	86.7%	84.0%	2.7%
Hate crime	76.6%	77.6%	-1.0%
Overall satisfaction	76.9%	74.7%	2.2%

Notes:

The figures show the rural / non-rural differences for victim satisfaction for the rolling twelve month period September 2017 - September 2018 for the 'whole experience' question

784 (18.5%) interviews were conducted with rural-based victims compared to 3458 (81.5%) for non rural-based victims (4242 respondents answered this question)

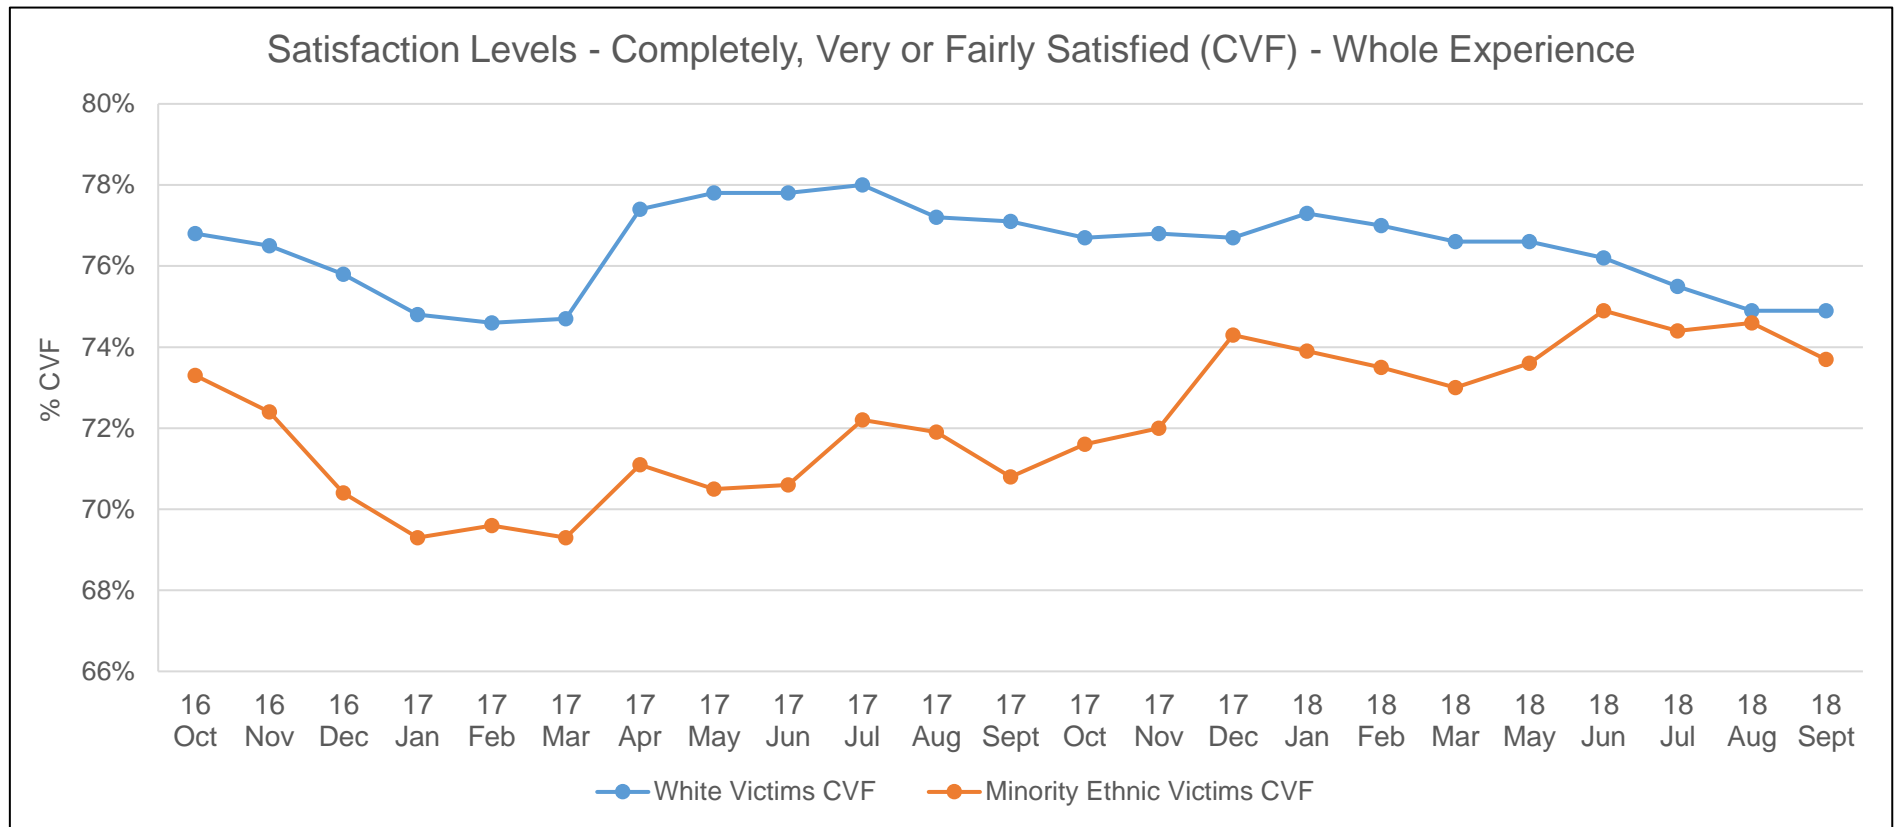

Due to the limited number of rural-based victims, the data shown is for twelve months

No interviews were undertaken in April 2018 due to moving to new provider

CVF - completely, very and fairly satisfied

VALUES IN THE CODE OF ETHICS

Satisfaction Gap

Note: From April 2017, vehicle crime has not been included in the rolling 12 months figure. Crime types now included are burglary residential (excluding sheds and garages), violent and hate crimes/incidents

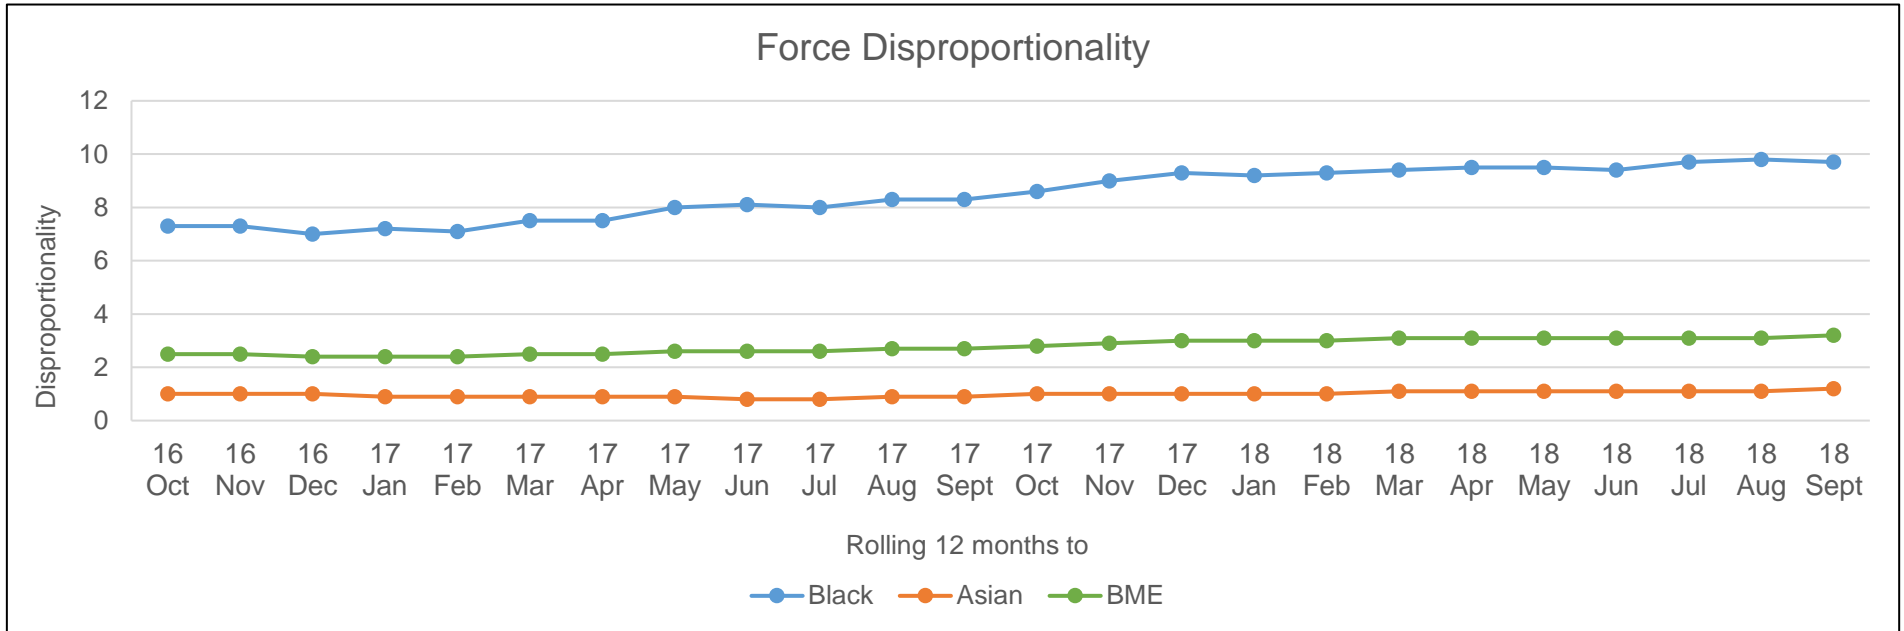

No interviews were undertaken in April 2018 due to moving to new provider

BAU: Of the 28 firearm grants and 80 shotgun grants, 23 (82%) and 65 (81%) respectively met the SLA.

Delays in the provision of GP and ACRO reports were the causes in those that went beyond the 12 week SLA.

As at 3 October there are no renewals awaiting processing. These are being dealt with upon receipt, and therefore fully meeting the SLA.

Repeat Crimes	3381	3855	474	14.0%
Repeat Crime Rate	34.1%	33.1%		-1.0 % pt

Notes:

A repeat domestic is defined as where an individual has been recorded as a victim on one or more previous occasions in the last rolling 365 days
 A change in the way we record harassment and stalking has had an effect on domestic crime volumes which have seen an increase, and on arrest rates which have seen a reduction. At this time we are unable to say how this change in recording will effect future performance, as the Home Office Counting Rule changes were only introduced in April 2018.

Child Abuse	Previous YTD	Current YTD	Change	% Change
Charged and Summoned	92	75	-17	-18.5%

Note: The crime codes selected are those defined by HMIC for child abuse.

The performance success of Child Abuse Investigations is not simply measured by the number of convictions. Any investigation must consider the needs and views of the child. Child Abuse covers a wide range of offences, including physical and sexual, with offenders not just strangers but often within the family. It also includes offences where both the victim and the offender are children. Almost all offences involving child victims involve multiple agencies working together to safeguard. In order to understand our own performance, we measure three key areas;

Formal Action Taken

Where we have either charged the suspect who will then go to court, or give them a formal out of court disposal such as a conditional caution or community resolution, where we can attach conditions, for example to undertake education or parenting courses

Formal Action Not Applicable

Sometimes we have sufficient evidence to proceed with a charge or formal outcome but for all of the reasons outlined above we will not proceed to a prosecution. Often this is because of the impact on the victim, their wishes, or the public interest in prosecuting the offender, for example where the child is very young and the consequences of the action taken were not necessarily realised and would result in a criminal record. More often than not this relates to offences where the victim or offender were of a similar age

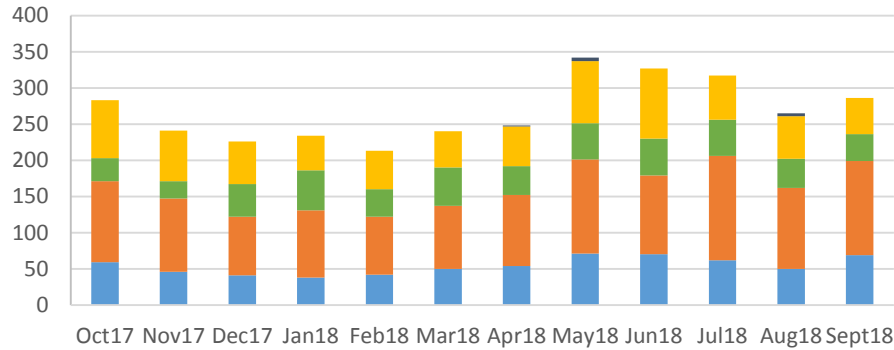

Outcome 20

This is used where another agency other than police have primacy for the action taken following the report of a crime. In most cases this will be social services and often results from joint investigations related to crimes within the family such as low level assaults or neglectful living conditions. Often in these cases the intervention of other services may help improve the long term care of the child and is therefore in their best interest

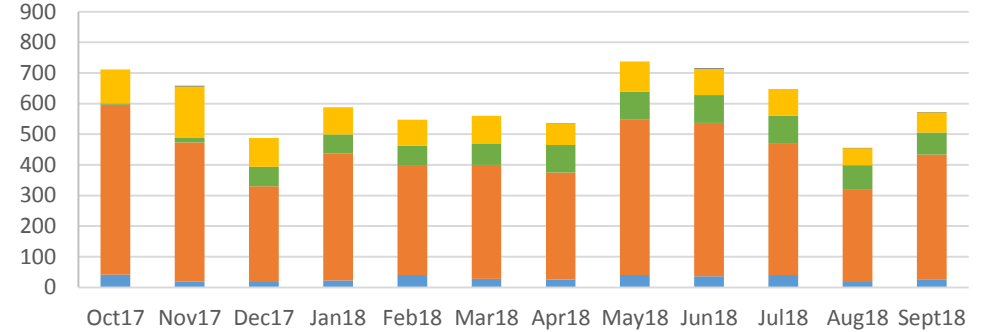

IDENTIFYING AND PROTECTING THOSE WHO NEED OUR HELP

Missing Persons

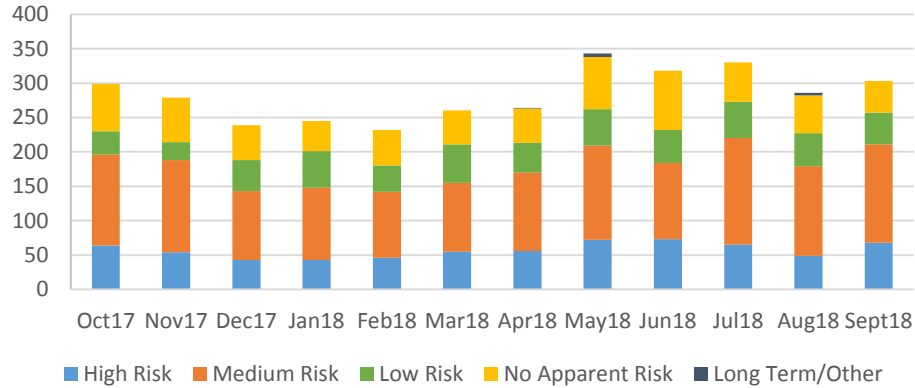

Adult Missing Persons Occurrences

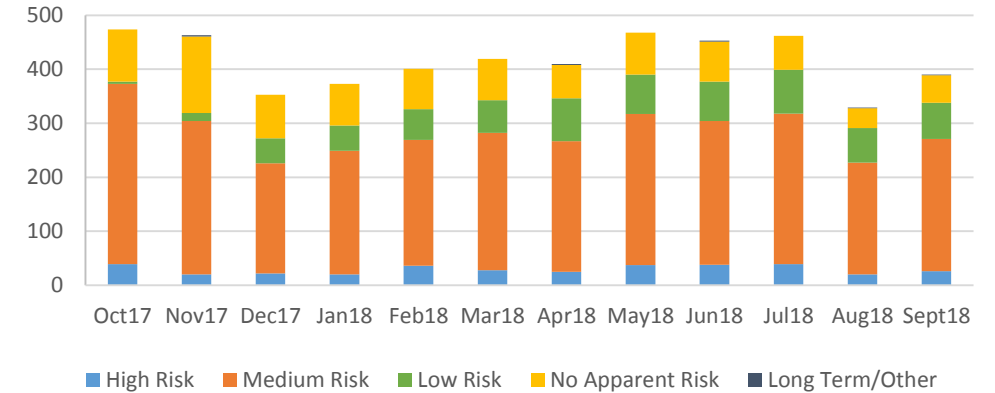

Child Missing Persons Occurrences

People

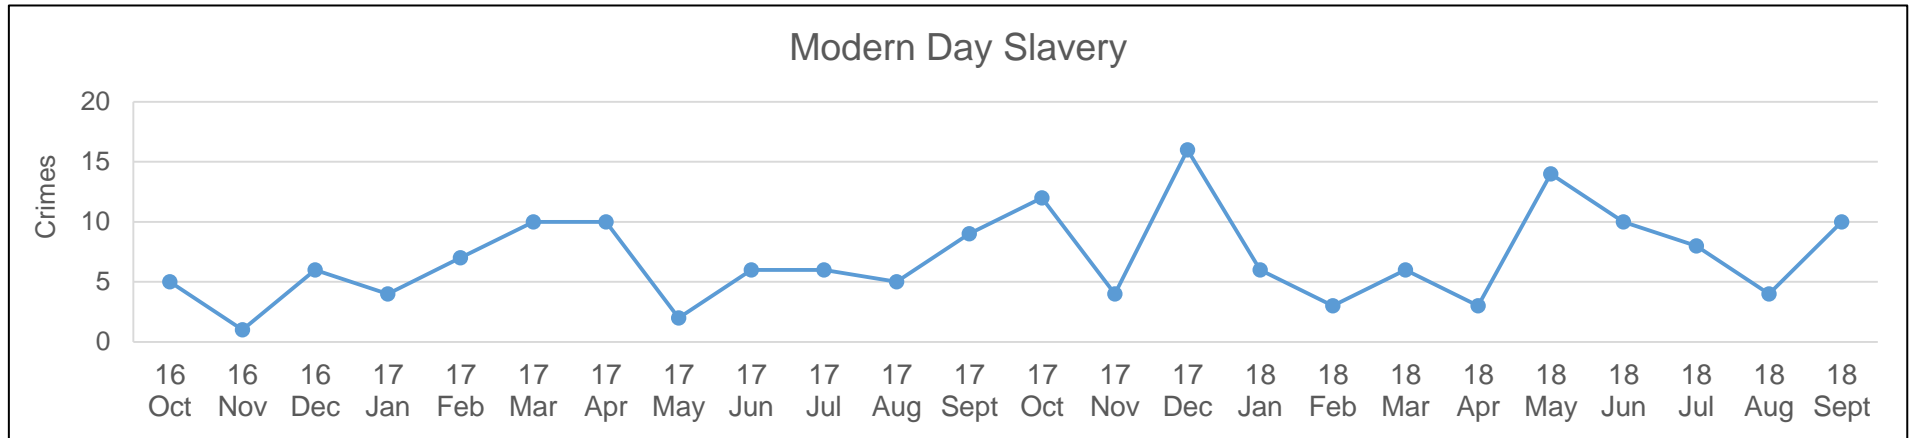

People

Missing Persons	Occurrences YTD	People YTD	Repeat Rate
Adult	1785	1844	-3.2%

MSG actual	3.089	20.5%
MSG average	2.262	19.5%

Note: Crimes per 1000 population, provided two month in arrears

IDENTIFYING AND PROTECTING THOSE WHO NEED OUR HELP

Harassment

Note: Home Office codes 8/71 (disclose private sexual photographs and films with intent to cause distress) and 8/72 (sending letters etc with intent to cause distress or anxiety) were removed from the classification of Harassment from 1 April 2017. These previously accounted for around 70% of harassment

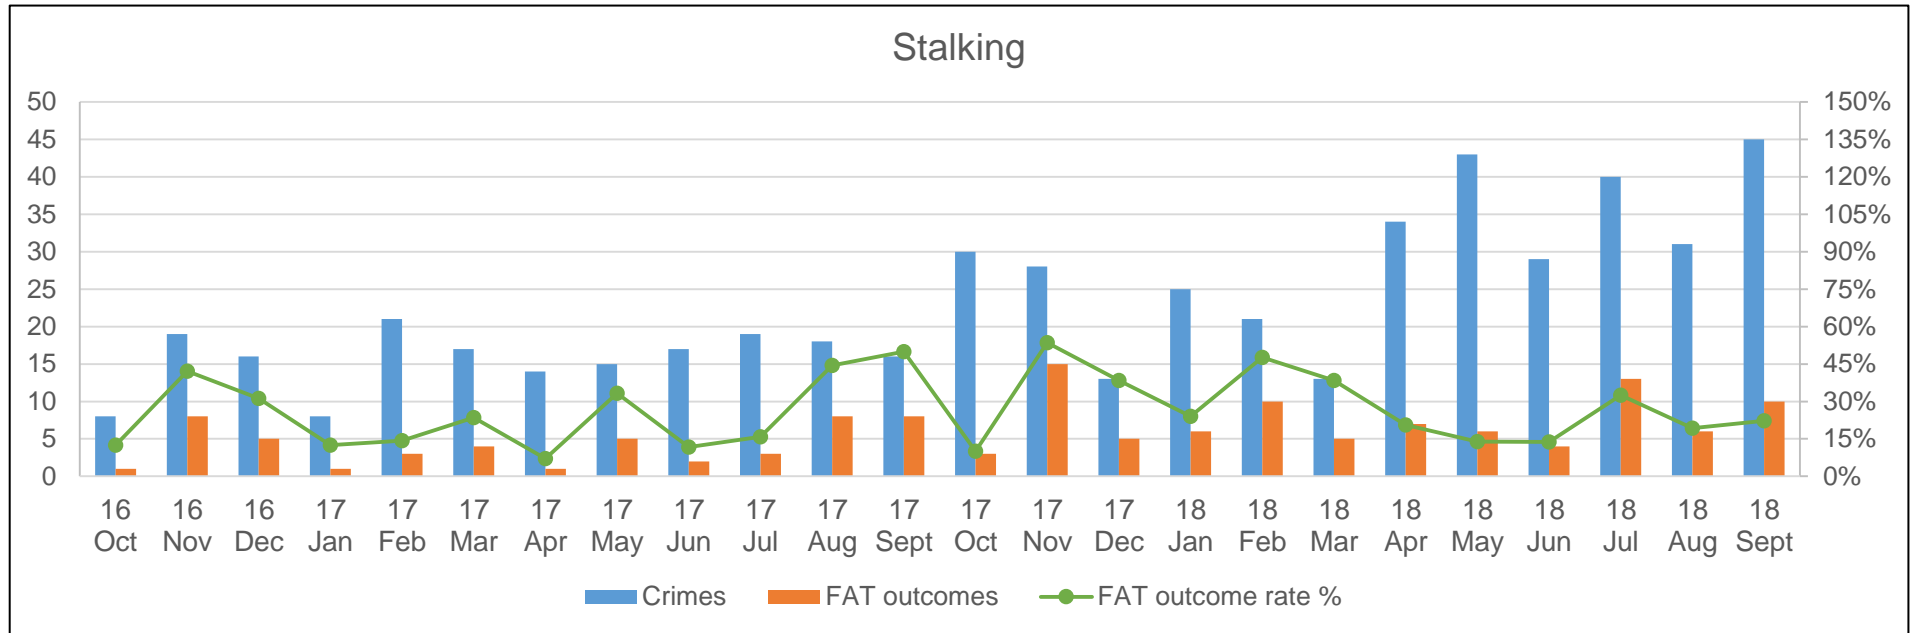

Harassment	Previous YTD	Current YTD	Change	% Change
Crimes	1026	1741	715	69.7%
FAT outcomes	245	275	30	12.2%
FAT outcome rate %	23.9%	15.8%		-8.1 % pt

The Protection from Harassment Act 1997 is designed to be used where no other substantive notifiable offence exists. It addresses series of incidents that do not amount to the commission of a substantive offence per se, but when looked at as a course of conduct are likely to cause fear, alarm or distress.

However, a course of conduct where all of some of the incidents do amount to substantive notifiable offences could also amount to harassment. Where this is the case the harassment will be recorded in addition to the most serious additional victim based offence involving the same victim-offender relationship reported at the same time. This Home Office Counting Rule change came into effect in April 2018

IDENTIFYING AND PROTECTING THOSE WHO NEED OUR HELP

Stalking

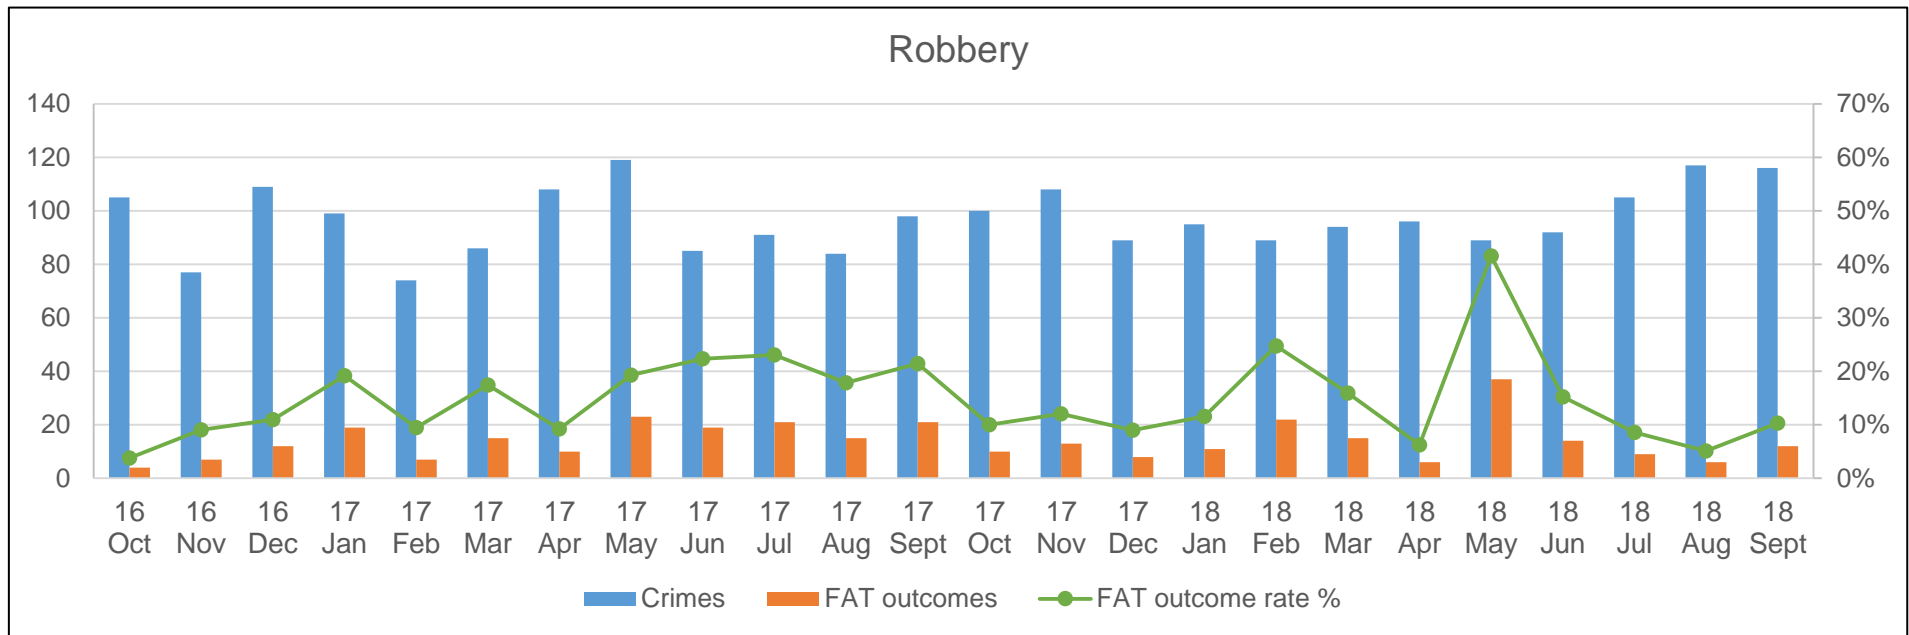

Stalking	Previous YTD	Current YTD	Change	% Change
Crimes	99	222	123	124.2%
FAT outcomes	27	46	19	70.4%
FAT outcome rate %	27.3%	20.7%		-6.6 % pt

Following the change in Home Office Counting Rules in April 2018, stalking should be recorded in addition to the most serious additional notifiable crime reported at the same time (per victim offender relationship)

IDENTIFYING AND PROTECTING THOSE WHO NEED OUR HELP
